

There is more than (1) template for this model guard. We require a tracing of your original guard to confirm which one of our patterns, if any, is a match.

The current guard, if there is one, needs to be removed from the instrument, all components taken off and the entire guard needs to be traced - all edges, routs, holes, etc. with a fine line (mechanical) pencil on plain bright white bond paper. Depending on the size of the guard, 2 pieces of paper may need to be taped together to get the entire image to fit well within the paper edges. Manila file folders can also be used for larger guards, but may be harder to fold. It is OK to fold the tracing - we are more concerned about the quality of the tracing - fine line detail is what we're looking for.

If nothing whatsoever of the original guard exists, please advise.

Send the tracing via First Class mail to:
